Novation Industries® connects with professional peers at Pack Expo 2014

Attendance tops 48,600

FOR IMMEDIATE RELEASE, January 28, 2015 -- Novation Industries® attended Pack Expo, Chicago, IL, on November 2-6, 2014. As one of over 2,350 exhibiting companies, Novation Industries® was able to connect with industry experts and gain valuable insights into emerging technologies and trends.

According to the company's president, Scott Baxter, "Attending Pack Expo allowed us to get face time with so many innovative thinkers and experts and share our strategies. It was definitely a successful show for us and we look forward to attending again this year."

Novation Industries® provides a wide array of specialty packaging solutions with experience spanning multiple industries and applications in consumer, industrial and medical goods markets. Their capabilities include full-service injection molding with integrated packaging development, including design, engineering and manufacturing. Their packaging solutions include closures, valves, pumps, containers, dispensers, lids, caps, and other packaging components. Packaging experience and capabilities include food, medical, industrial, home health, personal care, pet care, cleaning, and home improvement.

"Novation engineers provide decades of experience in the packaging industry and will work to develop designs for manufacturability that are cost-effective, efficient and repeatable," Baxter said. "We look forward to working with some of our new packaging customers, from ideation to manufacturing, to customize a packaging solution to fit specific project considerations including dispensing, ergonomics, and end-of-life sustainability considerations."

Novation Industries[®], formerly WM Plastics, was established in 1967 and specializes in integrated product development services including design, injection molding and sourcing, contract manufacturing, and logistics. The company's core ideology drives innovation, efficiency and a customer-centric focus. Novation Industries[®] has considerable expertise within diverse markets and has worked with major consumer products, medical and merchandising manufacturers to provide product development solutions.
